US Government Seeks Census Help

The time is upon us. The February 12 due date for the return of 2007 Economic Census forms is only a few days away.

More than 4 million American businesses, including 410 businesses in Henry County, received a form in December. Many very small businesses were not sent a form, and no action is required from them, but businesses that received a form are required by law (Title 13, U.S. Code) to complete and return it.

Today's economy presents many challenges. That is why both public policy and business decisions require reliable information on business conditions...information made possible by the timely responses of the businesses sent forms.

Commerce Department Secretary Carlos Gutierrez calls answering the Economic Census "an act of an act of corporate good citizenship. The Fed's Ben Bernanke calls the census "indispensable" and adds "returning your economic census form helps us all."

So, if your company still has the 2007 Economic Census, fill it out and send it in today. You can get help with your paper form,
